

Laser Label 70/60 white permanent

Front face Material LPU 05

Woodfree machine finished paper

Substance : 70 gr.

Caliper : 90 µ

Suitable for laser and inkjet printing.

Adhesive ACR 4P

General permanent adhesive designed for A4 and cut-size.

Acrylic water borne.

We hereby confirm that the above mentioned product is in compliance with the EC regulations:

EC 1935/2004 on materials and articles intended to come into contact with food ;

EC 2023/2006 on good manufacturing practice for materials and articles intended to come into contact with food.

All sites of our supplier in Europe have a food safety system according to ISO 22000:2005.

Use

Designed for A4 laminates. Very good resistance to heat. Good adhesion performance on a wide range of substrates.

Technical values

Tack : 9 N (FTM 9)

Shear minimum : 3 h (FTM 8)

Labelling at : +5° C

Service min / max : -20°C/+120°C

Liner

White woodfree kraft backing paper

Weight: 51 gr.

Caliper: 54 µ

Shelf Life

From the date of manufacture: 24 months under Finat defined storage conditions at +20 °C and RH 50%.

Regulatory information

Isega has given adhesive approval for direct contact with dry and moist non-fatty foods with reduction factor 4.

Specifications on the use of the material:

According to the migration tests performed by an accredited laboratory (EN ISO 17025) the above mentioned product may be used safely for the reverse coating of the labels for storage at room temperature. The adhesive layers in these may stand in direct contact with dry, moist and non-fatty foodstuffs according to regulation (EU) 10/2011. The maximum contact area in direct labelling of foodstuffs is 2 dm²/1kg food.

Furthermore the labels coated with the adhesive may be used for the labelling of food packaging materials. The maximum contact area in laminating application is 6 dm²/1kg food.
